GOWDHAMAN B J

Data Engineer | Front-End Developer

bjgowdhaman7@gmail.com +91 8637688277 LinkedIn Profile

PROFESSIONAL SUMMARY

Results-driven Data Engineer with 1 year of hands-on experience building scalable ETL pipelines using Databricks, PySpark, and Medallion Architecture. Databricks Certified Data Engineer Professional with expertise in Delta Lake, Workflow orchestration and real-time streaming. Previously worked as a Front-end developer with 3 years of experience in Angular, TypeScript, and REST APIs, bringing a string full-stack perspective to data engineering.

PROFESSIONAL EXPERIENCE

Associate Data Engineer | Diggibyte Technology Pvt Ltd *2025 – Present*

- Designed and implemented Medallion Architecture (Bronze/Silver/Gold) on Databricks to process large-scale datasets, enforcing schema validation, data quality checks, and optimized aggregations.
- Developed a Custom Code Ingestion Framework using PySpark enabling modular, configuration-driven transformations — significantly reducing pipeline development time for new data sources.
- Configured Lakeflow Connect and Aiven Kafka for automated Change Data Capture (CDC) and real-time streaming from SaaS sources (e.g., ServiceNow) into Databricks Unity Catalog.
- Managed metadata migration from on-premise PostgreSQL databases to Databricks Lakebase, streamlining data discovery, governance, and catalog management.
- Implemented Delta Lake best practices including ACID transactions, time travel, and Z-ordering to optimize query performance on large datasets.

Associate Software Engineer | Vee Technologies Pvt Ltd *2021 –2024*

- Developed responsive, high-performance web applications using Angular, TypeScript, and RESTful APIs, serving enterprise clients across multiple domains.
- Built reusable, modular Angular components and shared libraries that improved code maintainability and accelerated feature delivery across teams.
- Improved application load time and runtime performance through techniques such as Lazy Loading, OnPush change detection, and code splitting.
- Collaborated with backend teams to design and integrate REST API contracts, ensuring consistent data flow between frontend and server layers.

TECHNICAL SKILLS

Data Engineering	Databricks, PySpark, Delta Lake, ETL Pipelines, Medallion Architecture, CDC, Unity Catalog
Programming	Python, SQL, TypeScript, JavaScript
Streaming	Aiven Kafka, Lakeflow Connect
Frontend	Angular, REST APIs, HTML5, CSS3

CERTIFICATIONS

- Databricks Certified Data Engineer Professional — Databricks
- Databricks Certified Data Engineer Associate — Databricks
- Angular - HackerRank

EDUCATION

B.E. — Electronics & Communication Engineering *2017 – 2021*

Sona College of Technology (Anna University)
